Ah, I see. They only want to share the good news, not the bad.

Sorry, freaked out about any notion of NOAA putting this story in the news. But they'd be all over another calf sighting.

Freaked out about Peter's request? Or that the NGO's are putting something out?

Hi Teri and Shelley

How's life at the Center? The Aquarium's interesting and mostly great. I've starting having to deal with Max, which is always - different.

Anyway, I'm just checking whether you're going to do a release about Dragon's entanglement, that Tim's crew found recently. Do you plan to put something out soon?

cheers

Peter
