
Los Angeles Regional Water Quality Control Board

NOTICE OF POSTPONEMENT OF ITEM 7 AND CANCELLATION OF JUNE 9, 2022, BOARD MEETING

655TH REGULAR BOARD MEETING THURSDAY, JUNE 9, 2022

The Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) received several requests from local elected officials and local government agencies to postpone its consideration of Item 7 on the agenda for the June 9, 2022, Board meeting. Item 7 is a tentative resolution approving the proposed memorandum of understanding (MOU) between the Los Angeles Water Board and The Boeing Company establishing the processes, methodologies, and standards for assessing stormwater discharges and applicable requirements following The Boeing Company's soil cleanup at the former Santa Susana Field Laboratory Site and authorizing the Executive Officer to sign the MOU. Item 7 was the main item and the focus of the June 9, 2022, Board meeting.

The Los Angeles Water Board has carefully considered the requests for postponement. Given the importance of this matter to the communities around the site and the State of California, the Los Angeles Water Board has decided to continue this matter for no longer than two months, to allow everyone additional time to understand the proposed MOU. Therefore, the Los Angeles Water Board is cancelling the June 9, 2022, Board meeting. As a reminder, however, all of the terms of the original May 9, 2022, notice remain effective.

Item 7 on the agenda will be continued to a future Board meeting to be scheduled in no longer than two months. Items 3-6 on the agenda will be continued to the July 14, 2022, regular Board meeting.

Any questions concerning postponement of Item 7 can be emailed to Brian Anderson at brian.anderson@waterboards.ca.gov.
