RELEVANT STATUTORY AND REGULATORY FRAMEWORK

- 13. TSCA establishes a scheme designed, among other things, to provide the EPA with the authority "to regulate chemical substances and mixtures that present an unreasonable risk of injury to health or the environment." 15 U.S.C. § 2601(b)(2).
- 14. Pursuant to Section 5(a)(2) of TSCA, 15 U.S.C. § 2604(a)(2), the EPA is authorized to promulgate significant new use rules. Once the EPA determines in a significant new use rule that the manufacturing or processing of a chemical substance for a use constitutes "a significant new use" under TSCA, a manufacturer or processor must submit to EPA a New Use Notice for EPA review before manufacturing or processing the substance for that use. 15 U.S.C. § 2604(a)(1).
- 15. Pursuant to Section 5(a) of TSCA, 15 U.S.C. § 2604(a), no person may manufacture or process any chemical substance for a use which the EPA has determined is a significant new use under Section 5(a)(2) of TSCA, 15 U.S.C. § 2604(a)(2), unless (1) the person

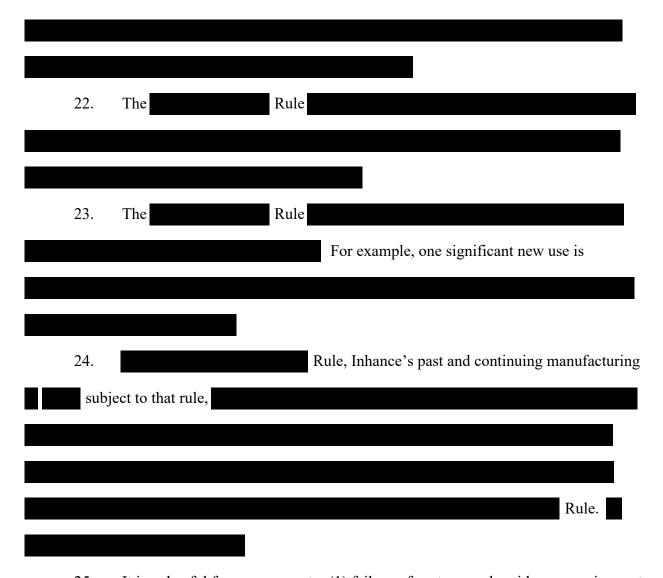

submits to the EPA, at least 90 days before such manufacture or processing, a New Use Notice, as required by Section 5(a)(1)(B), 15 U.S.C. § 2604(a)(1)(B), and 40 C.F.R. § 721.25, of such person's intention to manufacture or process such substance; (2) such person complies with any applicable requirement imposed by Sections 5(b), (e), or (f) of TSCA, 15 U.S.C. §§ 2604(b), (e), or (f); (3) the EPA conducts a review of the notice; (4) the EPA makes a determination in accordance with Section 5(a)(3) of TSCA, 15 U.S.C. § 2604(a)(3); and (5) the EPA takes the actions required in association with that determination.

- 16. Under 40 C.F.R. § 721.25, each person who is required to submit a significant new use notice under Part 721 must submit the notice at least 90 calendar days before commencing manufacture or processing of a chemical substance identified for a significant new use. The submitter must comply with any applicable requirement of Section 5(b) of TSCA, 15 U.S.C. § 2604(b), and the notice must include the information and test data specified in Section 5(d)(1) of TSCA, 15 U.S.C. § 2604(d)(1).
- 17. Following the submission to the EPA of a New Use Notice, the EPA is required to review the New Use Notice to determine whether the relevant chemical substance or significant new use presents or may present an unreasonable risk of injury to health or the environment, without consideration of costs or other non-risk factors, including an unreasonable risk to a potentially exposed or susceptible subpopulation. Section 5(a)(3) of TSCA, 15 U.S.C. § 2604(a)(3).
- 18. If the EPA reviews the New Use Notice and determines that (A) the information available is insufficient to permit a reasoned evaluation of the health and environmental effects of a chemical substance with respect to which a notice is required, or (B) in the absence of sufficient information to permit the EPA to perform such an evaluation, the manufacture,

processing distribution in commerce, use, or disposal of such substance, may present an unreasonable risk of injury to health or the environment, without consideration of costs or other non-risk factors, or (C) such substance is or will be produced in substantial quantities, and such substance either enters or may reasonably be anticipated to enter the environment in substantial quantities or there is or may be significant or substantial human exposure to the substance, then the EPA must issue an order to prohibit or limit the manufacture, processing, or distribution in commerce of such substance to the extent necessary to protect against an unreasonable risk of injury to health or the environment, without consideration of costs or other non-risk factors, Section 5(e) of TSCA. 15 U.S.C. § 2604(e).

- 19. If the EPA determines that a chemical substance or significant new use with respect to which notice is required presents an unreasonable risk of injury to health or the environment, without consideration of costs or other non-risk factors, the EPA must take actions to the extent necessary to protect against such risk, including issuing a rule or order to prohibit or limit the manufacture, processing, or distribution in commerce of such substance. Section 5(f) of TSCA, 15 U.S.C. § 2604(f).
- 20. The EPA has promulgated a number of significant new use rules. *See generally* 40 C.F.R. § 721, subpart (E). These rules specify the types of uses of particular substances that qualify as "significant new uses" of those substances. *See generally* 40 C.F.R. § 721, subpart (E). Among the significant new use rules promulgated by the EPA is the Rule

- 25. It is unlawful for any person to: (1) fail or refuse to comply with any requirement of TSCA or any rule promulgated, order issued, or consent agreement entered into under TSCA; (2) use for commercial purposes a chemical substance which such person knew or had reason to know was manufactured or processed in violation of Section 5 of TSCA, 15 U.S.C. § 2604; or (3) fail or refuse to submit notices as required by TSCA or any rule promulgated under the statute. Section 15 of TSCA, 15 U.S.C. § 2614.
- 26. Under 40 C.F.R. § 721.35, the failure to comply with any provision of Part 721 (Significant New Uses of Chemical Substances) is a violation of Section 15(1) of TSCA, 15

U.S.C. § 2614(1). Using a chemical substance for commercial purposes that a person knew or had reason to know was manufactured or processed in violation of Part 721 also is a violation of Section 15(2) of TSCA, 15 U.S.C. § 2614(2).

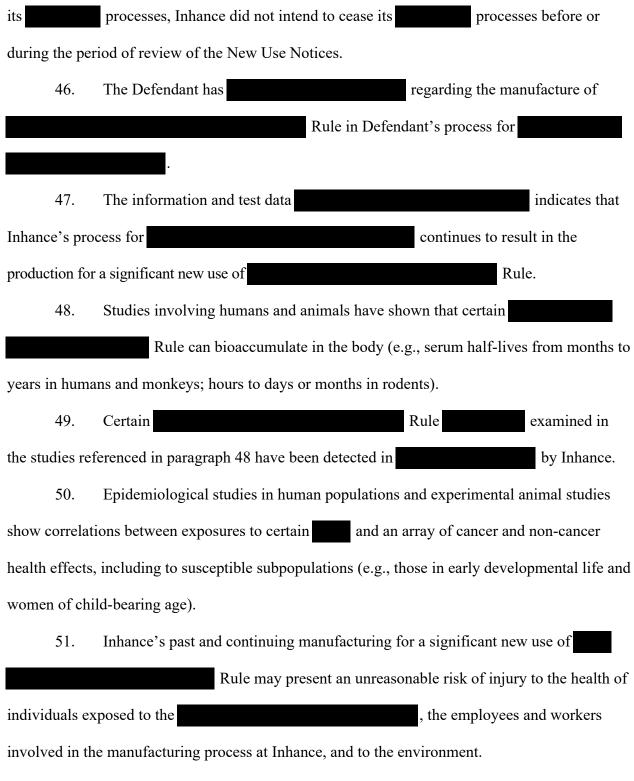

- 27. Pursuant to Section 17(a)(1), 15 U.S.C. § 2616(a) of TSCA, the district courts of the United States have jurisdiction over civil actions to (A) restrain any violation of Section 15 of TSCA, 15 U.S.C. § 2614; (B) restrain any person from taking any action prohibited under Section 5 of TSCA, 15 U.S.C. § 2604; (C) compel the taking of any action required by or under TSCA; and (D) direct any manufacturer or processor of a chemical substance subject to subject to a rule or order under Section 5 of TSCA, 15 U.S.C. § 2604, and distributed in commerce to (i) give notice of such fact to distributors in commerce of such substance, and to other persons in possession of such substances or exposed to such substances; (ii) to give public notice of such risk of injury; and (iii) either replace or repurchase such substance.
- 28. Under the Declaratory Judgment Act, 28 U.S.C. § 2201, where an actual case or controversy exists, a court may issue a binding decree that defines the rights and obligations of the parties.
