Subject: FW: PEER

Mr. Phillips, attached you will find information from your records request related to administrative orders and other information associated with the Office of General Counsel. Laurie Roughton developed the spreadsheets attached and there is some descriptive language in her email below. **Regarding the rest of your request, we have been arduously trying to figure out how we could provide that information to you but understand from our Director of Technology that his staff would have to develop a new program in order to extract that information from files contained across the state.** Because the information you wish to collect is contained within files maintained by numerous different programs (e.g. Air, Water, Waste, etc) and in numerous different district offices across the state, we are unable to extract and compile that information. However, you may be able to extract information you are looking for from files/file information made available via our online sources for the various programs. Below, I have included some information/directions on these sources and also can connect you with a "user" from the program areas who could assist with any technical aspect of using these various online systems. In addition, I am including the contact information for the ombudsmen in the district offices across the state that may be able to assist in pinpointing various files you may wish to review or receive copies of. Please don't hesitate to contact me with questions you may have about this request. Laurie Roughton will be your best source of information specific to the information from the Office of General Counsel. Best Regards, Bonnie Hazleton [Emphasis added]
