

Pursuant to OPRA and federal FOIA, I request the following public records:

1. The *executed* agreement, or final draft agreement if the agreement is not yet executed, between the Department and the Chemistry Council of New Jersey, regarding joint DEP and industry oversight of chemical plant security, chemical process safety, and NJ TCPA;
2. All correspondence and/or email between the Chemistry Council of New Jersey and Commissioner Bradley M. Campbell, Assistant Commissioner Ernie Hahn, *Assistant* Commissioner Sam Wolfe, and the Assistant Commissioner for Site Remediation
3. Agendas, minutes, attendance lists, and all correspondence and emails related to the regular quarterly meetings between Commissioner Campbell and regulated industry groups, including the Chemistry Council of New Jersey, the NJ Business and Industry Association, the NJ Petroleum Council, Fuel Merchants Association, and the *NJ* Chamber of Commerce.
4. Agendas, minutes, attendance lists, and all correspondence related to a specific meeting between industry groups and Commissioner Campbell. This meeting was held the week immediately prior to October 2, 2003.
5. All correspondence or communications between Commissioner Campbell and Valero Energy Corporation.

This request is limited in scope to the offices of Commissioner and Assistant Commissioners. Please advise if any of these requests would incur "extraordinary" charges under OPRA. I want to know of any charges before they are incurred. If substantial, I may narrow the scope of this request to avoid such charges. Please contact me to arrange for file review of these records, so I can decide which documents I would like to copy (and pay for)

Thank you.

Bill Wolfe, Director, NJ *PEER*
