notice of
cancellations

Hello everyone,

I wanted to let you know that EPA HQ is planning to cancel subscriptions to a few newsletters that you may read. These subscriptions are currently found on the Desktop Library. Specifically:

* Within a few months, Greenwire will no longer be available on the Desktop Library

* Inside EPA (both the daily and weekly versions) will still be available. However, HQ plans to cancel five special reports that "Inside EPA" produces:

- (1) The Clean Air Report
- (2) The Water Policy Report
- (3) The Superfund Policy Report
- (4) The Risk Policy Report
- (5) Environmental Policy Alert.

If any of these cancellations concern you, please let me know. I understand that these decisions are not yet "case in concrete." And my colleague at EPA Headquarters would appreciate feedback on the extent of concern (if any) among Agency personnel.

Sincerely,

Maureen Kiely, Manager
Environmental Information Service Center/Technical Library
U.S. Environmental Protection Agency Region 8
