

Integrity in Public Service Pledge for Presidential Candidates

If elected, I pledge that my administration will -

1. Conduct governance – “the people’s business” – in the open and facilitate responsible oversight by respecting the Freedom of Information Act and keeping vital documents in the public domain.
2. Support public servants who tell the truth and have zero tolerance for appointees who retaliate or condone retaliation against whistleblowers; and
3. Protect scientists who report inconvenient truths and remove from office anyone who manipulates public agency science for political ends.
