

This report, required by Section 2(e) of the Endangered Species Cooperative Agreement between the Florida Fish and Wildlife Conservation Commission (FWC) and the U.S. Fish and Wildlife Service (USFWS), is to provide you details regarding the death and handling of a Florida panther.

The remains of UCFP180, an approximately 4 to 5 year-old uncollared male panther, were collected on 19 November 2012 at 9 PM on US 41 just west of Manatee Road in Collier County. The cause of death was collision with a vehicle. The carcass will be transported to the FWC Wildlife Research Lab in Gainesville for a complete necropsy. The remains will be archived at the FL Museum of Natural History. This is the 23rd panther mortality and 15th road mortality for 2012.

This information is being provided as required by Section 2(e) of the Endangered Species Cooperative Agreement between the Florida Fish and Wildlife Conservation Commission (FWC) and the U.S. Fish and Wildlife Service (USFWS). It is not intended as a News Release. All information should be considered "pending" until all necropsy results and tests are finalized.
