Hi Rick,

Attached is an outline (with a couple of places filled in) of the proposed Interagency Agreement with USGS. Can you take a look at it and help me filling in the:

- Introduction – What is the problem and why do we need this IA
- Background – What information do we already have.
- Task 3.2 – What is it?
- Task 3.3 – What is it?
- Task 3.4 – Think about the nuisance tasks that just pop up during the year. That's what we should put in here.
- Additional Option Tasks – This is where we can throw in the kitchen sink. Think of anything that you could possibly want to do and we include it here so if you find a need and funding we only have to do a mod to add the work.

Are you available at 3pm to talk about this?

Thanks,

Mario
